we have serious problems of water contamination, (samples tested by volunteer lab in Pittsburgh) well, spring and stream and road samples(road sample shows that the road was watered with contaminated water..we have now a lawyer willing to begin to sue them. Flares are going on and today we had collapse of containment pond on to road at the same time there was a tanker on fire..rescue equip had only one lane to get through and i am not sure how the tanker scene will be cleaned up as it is out of public view..we have many small farms and many do not understand the nature of this pollution..the stream at Silver hill now has piles of clay dirt and collapsed banks (due to heavy vehicles) we have

tried to get help from charleston regulators with no real results. Rt 89 was handed over to chesapeake energy to maintain and repair..how can this be legal...the local sheriff accepted a cruiser from chesapeake and chesapeake has a company cop in a car painted like a police car roving the area..i have talked to the State Police about him and he has no authority...Chesapeake is being sued by investors and has been fined in Wisconsin, arkansas and Pa..please help us...we are really very desparate someone needs to inspect the sites and stop them from bulldozing entire farms and test the creeks etc Ex. 6 - Personal Privacy macedonia Ridge Wetzel Co WV..i have talked to people like Ex. 6 - Personal Privacy Delegaye from Taylor Co and he said people in his district are desparately looking for help as well...
